

MozyEnterprise Online Backup

The MozyEnterprise advantage

Simple

Manage multi-user environments, schedule automatic backups, and monitor the health of your backups from a web-based console.

Secure

Mozy is SSAE 16 audited and ISO 27001 certified, using only the strictest security policies, military-grade encryption, and world-class data centers.

Affordable

MozyEnterprise integrates seamlessly into your existing infrastructure with no need for tapes, DVDs, or hardware, keeping IT management and costs at a minimum.

Enterprise backup made simple

As an IT professional, you know the importance of keeping your corporate data safe. The critical task of remote backup can be an expensive and challenging endeavor for large businesses.

MozyEnterprise makes remote backup for computers and servers simple to manage and easy to use. With a simple and affordable per-user license model, Mozy saves you time and money with an enterprise-grade remote backup solution that doesn't take months to set up, require thousands of dollars of new hardware costs, or force you to hire more administrative overhead. MozyEnterprise gives you the flexibility to deploy and manage multi-user environments from the convenience of a single web-based administrative console.

Whether you're the CTO of a Fortune 100 company or an IT consultant working with a large company, MozyEnterprise is your enterprise solution for remote data backup. Mozy is backed by EMC and VMware so you can be confident that your company data is safe, secure, and available.

Tools that give you control

The MozyEnterprise web console allows the IT administrator to:

- Create sub-administrators
- View account usage, history & stats
- Generate & email reports automatically
- Reset account passwords
- Integrate with Active Directory
- Change account status
- View & distribute license keys
- Customize configuration settings
- Manage end-user settings

Designed with the end-user experience in mind

Through the MozyEnterprise client, end users can:

- Sign in once through Active Directory credentials
- Select files and folders to back up
- Set automatic and schedule backups
- Configure options & bandwidth throttling
- Enable local backup with Mozy 2xProtect™
- Enable on-demand backups
- See a history of all backups
- Restore files and folders
- Change account status

MozyEnterprise backs up server-specific applications, including:

- Network shares
- All versions of SQL and Exchange
- SharePoint
- Active Directory
- Com+ services
- SYSVOL directory share
- Windows Registry database

Support

- **24x7x365 Support:** Access to around-the-clock email and phone support with expert technicians.

MozyEnterprise feature set

Fast

- **Data seeding:** Move terabytes to the cloud in no time with Mozy Data Shuttle.
- **File scanning:** Back up millions of files effortlessly with advanced file scanning.
- **Block-level incremental backups:** After the initial backup, MozyEnterprise only backs up new or changed portions of files, saving bandwidth

Simple

- **Easy account management:** Manage multiple users with an intuitive, web-based administrative console.
- **Set up user groups:** Organize users into meaningful groups by profile, space usage, feature availability, backup configuration & more for easier administration.
- **Active Directory integration:** Automatically trigger user creation, organizations and removal in MozyEnterprise.
- **Single Sign-On:** End users log on with AD credentials.
- **Custom installations:** Choose from user-assisted, background, and silent installation options through your software management system of choice.
- **Automatic or scheduled backups:** Back up automatically or to a schedule you choose.
- **Custom configurations:** Set policies on bandwidth usage and backup speeds, create custom backup sets or define what file types should be backed up.
- **Reliable data restores:** Browse and search your backed up files, then restore file versions up to 90 days in the past in multiple ways, including the web, software client, or by ordering a DVD restore.
- **Local backup:** Windows users can back up locally to an external device as well as online for double protection with Mozy® 2xProtect™.
- **Standard and customizable backup sets:** Use pre-defined backup sets of common file types, or create your own backup sets.

Secure

- **Encryption:** All user data is encrypted locally with military-grade encryption prior to transfer. Choose a managed key, personal key, or enterprise custom key for added security.
- **World-class data centers:** Mozy data centers employ state-of-the-art security with 24x7x365 onsite monitoring and security, fire detection and suppression systems, redundant power distribution units, and employ the highest security standards.
- **Audits and certifications:** Mozy is SSAE 16 audited and ISO 27001 certified.

Scalable

- **Back up computers, servers, and NAS:** MozyEnterprise backs up laptops, desktops, NAS, and mission-critical data on multiple servers including SQL, Exchange, and other file servers.
- **Open and locked file support:** Our service backs up all open and locked files, including Outlook PST files.
- **Version (snapshot) support:** Restore from file versions up to 30 days in the past.
- **Mobile app:** Access stored data from any iOS or Android device with the free Mozy mobile mobile app.
- **Windows and Mac support:** MozyEnterprise supports Windows 7, 2008, Vista, XP, and 2003, 2012 (desktop/server) and Mac OS X 10.8, 10.7, 10.6, 10.5, & 10.4 (desktop/server).

Network Usage

- **Single-instance storage:** Duplicate files across your environment are only backed up once, saving bandwidth.
- **Bandwidth throttling:** Define the amount of bandwidth used all the time or between specific intervals.
