The Economy Storage System for SMBs

#### **ETERNUS DX Storage**

Combining leading performance architecture with automated quality of service management the Fujitsu Storage ETERNUS DX series aligns storage resources with business priorities, thus enabling higher system utilization and delivering increased system consolidation capabilities and a faster ROI. Unified scalable entry-level and midrange systems, a provides functionality to ensure data protection. seamless family concept enabling system upgrades and ETERNUS SF, the unified management suite across the product line, reduce operational and migration costs. ETERNUS SF Storage Management Software provides enterprise-class functionalities in the entry and midrange class and allows flexible disaster recovery and business continuity concepts for the different model sizes, thus decreasing investment costs.

#### **ETERNUS DX60 S3**

Delivering reliable operation at an affordable price makes ETERNUS DX60 S3 an ideal disk storage system for small and medium-sized IT environments.

Management software, included at no extra cost, reduces administration effort and Flexible support for different network connections and disk types enables choice in cost and performance optimization.

Designed for smaller environments it provides remarkable scalability in storage capacity offering good headroom for future growth. The perfect storage solution for consolidation of distributed data and for smaller server virtualization projects.

### Features & Benefits

Main Features	Benefits
Reliable operation at an affordable price	
	<ul> <li>Affordability</li> <li>Leading performance for the entry-level</li> <li>Rich data safety functionality</li> <li>Enterprise proven capabilities already in entry-level storage</li> </ul>
Ideal for small and medium-sized IT environments	
	<ul> <li>Easy to install, configure, operate and maintain</li> <li>Perfect fit for storage consolidation starters &amp; virtualization newcomers with medium capacity requirements and predictable growth rates</li> </ul>
Free-of-charge ETERNUS SF Express Storage Management	<ul> <li>Free-of-charge, richly featured management suite</li> <li>Single point administration</li> <li>Easy and efficient operation</li> </ul>

#### Fujitsu OPTIMIZATION Services

In addition to Fujitsu ETERNUS DX60 S3, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

#### Fujitsu Portfolio

Build on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offering. This allows customers to leverage from alternative sourcing and delivery models to increase their business agility and to improve their IT operation's reliability.
