

THE LENOVO® THINKSERVER® TS130

POWERFUL, RELIABLE AND UNMATCHED VALUE

ADVANCED MANAGEABILITY
FEATURES WITH OPTIONAL AMT 7.0
AND REMOTE KVM*

COMES STANDARD WITH
REMOTE MANAGEABILITY TOOLS

LEGENDARY THINK QUALITY, ENERGY
EFFICIENT, WHISPER-QUIET PERFORMANCE

XEON PERFORMANCE, ENTERPRISE-CLASS
HARD DRIVES, BUILT-IN RAID, AND ECC MEMORY

HIGHLY AFFORDABLE, ENTERPRISE-TOUGH
QUALITY DESIGNED FOR 24X7 OPERATIONS

UP TO 30% PERFORMANCE GAINS
WITH THE LATEST E3-1200 V2 XEON
TECHNOLOGY AND TURBO BOOST 2.0

IMPROVED FEATURES OF TS130

- FASTER PERFORMANCE WITH LATEST INTEL XEON E3-1200 V2 PROCESSORS
- GREATER SCALABILITY WITH NEW 3TB SATA CHOICES
- NEW, RETAIL-READY COMPONENT CHOICES LIKE PARALLEL PORTS, HIGH SPEED USB 3.0 AND SERIAL PORTS
- EXPANDED OPERATING SYSTEM SUPPORT WITH MICROSOFT MULTIPOINT SERVER

The ThinkServer® TS130 combines the latest Intel® Xeon performance, legendary Think quality and exclusive AMT® 7.0 manageability tools to deliver a powerful, manageable and highly affordable server solution for Managed Service Providers (MSPs), branch offices and small businesses.

Designed for 24x7 operations and loaded with true server-class features, the TS130 offers an attractive solution to small businesses. Its improved manageability tools eliminate the need for costly on-site IT staff. In addition, these built-in tools make it easier for MSPs to remotely and cost-effectively manage end-user environments.

An expansive options and services portfolio make it easy to customize the perfect TS130 for your needs. TS130 offers feature-rich performance in an Energy Star-qualified, whisper-quiet compact tower chassis – perfect for retail or front office applications.

POWERFUL, STABLE, AND SECURE

The ThinkServer® TS130 is a powerful, feature-rich yet affordable server, perfect for retail, branch office or front office use.

- **Lower operating costs** thanks to energy efficient performance and latest generation Intel® Xeon™ E3-1200 v2 processors. TS130 provides easy remote manageability, with onboard tools to remotely power on/off your servers.
- **Highly affordable**, yet enterprise-tough. TS130 pays you back with reliable, feature-rich server computing at a desktop price.
- **Maximize uptime** with true server-class features like ECC memory, enterprise-class hard drives, & built-in RAID.
- **Increase productivity** via improved Xeon performance with Turbo Boost 2.0 and powerful HD graphics performance.

INDUSTRY-LEADING GREEN ATTRIBUTES

The ThinkServer® TS130 delivers true server-class reliability, whisper-quiet performance and legendary Think quality and innovation.

- **Think heritage:** Successor to the popular TS200v, the innovative TS130 is perfect for 24x7 operations requiring peak dependability and server-class quality.
- **Enterprise-tough features** like ECC memory, built-in RAID and latest Xeon performance – great for small businesses that need to transition from a desktop to a true server.
- **No costly racks** or closets needed. Cool, compact and quiet, you can deploy the TS130 nearly anywhere in your business.

CUSTOMER SCENARIOS

The Server Solution for Managed Service Providers (MSPs)

The ThinkServer® TS130 combines high performance Xeon technology and legendary Think quality in a highly manageable single-socket server solution. Certified with popular MSP Managed Service Console ecosystem vendors like Level Platforms, Kaseya, and N-able, you can bet your business on ThinkServer TS130. With true server-class durability, RAID 0/1 support, and out-of-band management, the feature-rich TS130 offers an attractive solution to MSPs. Plus, the newest AMT 7.0 manageability toolsuite offers improved KVM features and new host provisioning tools allow MSPs to remotely and cost-effectively manage end-user environments.

TS130 servers are easy for MSPs to set up and manage, built to perform 24x7. They are highly configurable with a rich suite of Options and ROK kits. Plus, TS130 servers are readily available in channel inventory and are packaged in convenient TopSeller Configurations.

The Server Solution for Small and Medium Businesses

The TS130 delivers true server-class reliability with latest Xeon performance, enterprise-class hard drives, RAID 0/1 support and ECC memory. For businesses moving up from a desktop to a first server, the TS130 provides a highly affordable yet powerful enterprise-tough server with energy efficient features to lower your operating costs. Designed for 24x7 performance and robust data integrity, TS130 lets you concentrate on growing your business – not managing IT. Renowned Think quality provides peace of mind.

POWERFUL INTEL® AMT® MANAGEABILITY

The ThinkServer TS130 provides a rich experience with ease of installation and management.

- **Remote management with Intel® AMT™** (select models) provides out-of-band remote access and management, independent of the status of the managed server.
- **Broad MSP ecosystem support** on leading platforms like N-able, Kaseya and Level Platforms.
- **Easy to use** with an intuitive, secure web console for "point-&-click" management. No installation required – works right out of the box.
- **Whisper-quiet performance**, great for retail, branch office or front-office use.

The Server Solution for Corporate Branch Offices

TS130 features legendary Think quality with powerful remote manageability tools with AMT 7.0 for easy, efficient server maintenance. TS130 is perfect for branch offices or remote deployments with little or no IT staff. The TS130 can be easily monitored and managed from the headquarters offices. Whisper-quiet yet powerful, there is no need for a costly datacenter or rack closet – you can deploy the TS130 nearly anywhere in your business.

The Server Solution for Retail and Point-of-Sale Deployments

Your retail transactions are paramount to your business -- every transaction matters. Uptime isn't negotiable and transaction processing must be rapid, reliable and predictable. And, you need all these features in a solution that won't break your budget. Consider the ThinkServer TS130 -- it's ideal for demanding retail and point-of-sale deployments. The TS130 offers an impressive suite of I/O choices like modem ports, high speed USB 3.0 and parallel ports. And, for exceptional ethernet expansion, consider the dual port ethernet adapter. Built on reliable Intel technology, it meets your bandwidth needs to handle traffic. Designed with Think-tough attributes the TS130 offers the durability and reliability you demand in retail deployments, at prices friendly on your budget. Yet, TS130 is more than simply rich I/O in a compact tower server. It delivers dynamite performance with the latest generation Intel Xeon E3-1200 v2 processors, and offers great SATA capacity. Combining all these choices in a platform starting at \$499, and TS130 represents a compelling choice for retail deployments.

OPTIONS AND ACCESSORIES

ThinkServer DDR3 ECC Memory

High performance ThinkServer ECC memory takes full advantage of Intel's technology while delivering true server-class 99.94% reliability.

P/N	
67Y2606	ThinkServer 2GB DDR3-1333MHz (1RX8 ECC UDIMM)
67Y2607	ThinkServer 4GB DDR3-1333MHz (2RX8 ECC UDIMM)
